

Data sheet

LED Ring Light

2-1.030

DESCRIPTION

The lamp provides uniform illumination of the entire welding area, reaching all corners thanks to its design. Made of anodized aluminum, significantly enhancing its durability and improving heat dissipation.

TECHNICAL DATA

12 LEDs

Power supply: DC 12 V

Smooth dimming: 0-100%,

Power consumption: 10 W.

Weight: 0.4kg.

Light color:: 5000K

Maximum illumination intensity: 20 000 lx

(measured at a distance of 100 mm from the light source)

Illuminated area diameter: Ø 180 mm

(measured at a distance of 100 mm from the light source)

Mounting diameter: Ø 60 mm

OPTIONAL ADDITIONAL COMPONENTS (Not included in the set)

-

APPLICATION

Laserpoint and OR-Laser laser welders

SPARE PARTS

Protective glass with IR filter 17-3.003

PACKAGE CONTENTS

LED Ring lighting, touch dimmer control, power cable, mounting adapter.

ADDITIONAL INFORMATION

2-1.030 - Tariff code 85395000; Country of Origin: PL

17-3.003 - Tariff code 85399090; Country of Origin: PL

WARRANTY CONDITIONS

12 months from the date of purchase.

The warranty does not cover consumable parts such as protective glass.
